SOLUTIONS**

What Do We Do?

WEX Health simplifies the business of health care through modular commercial cloud-based solutions for Federal, State and Local governments—including health and human services, Medicaid departments, and social programs.

Comprehensive and modular solutions

- Advanced billing and payments
- Benefit Cards
- Financial Support Services
- Consumer-directed account-based plans

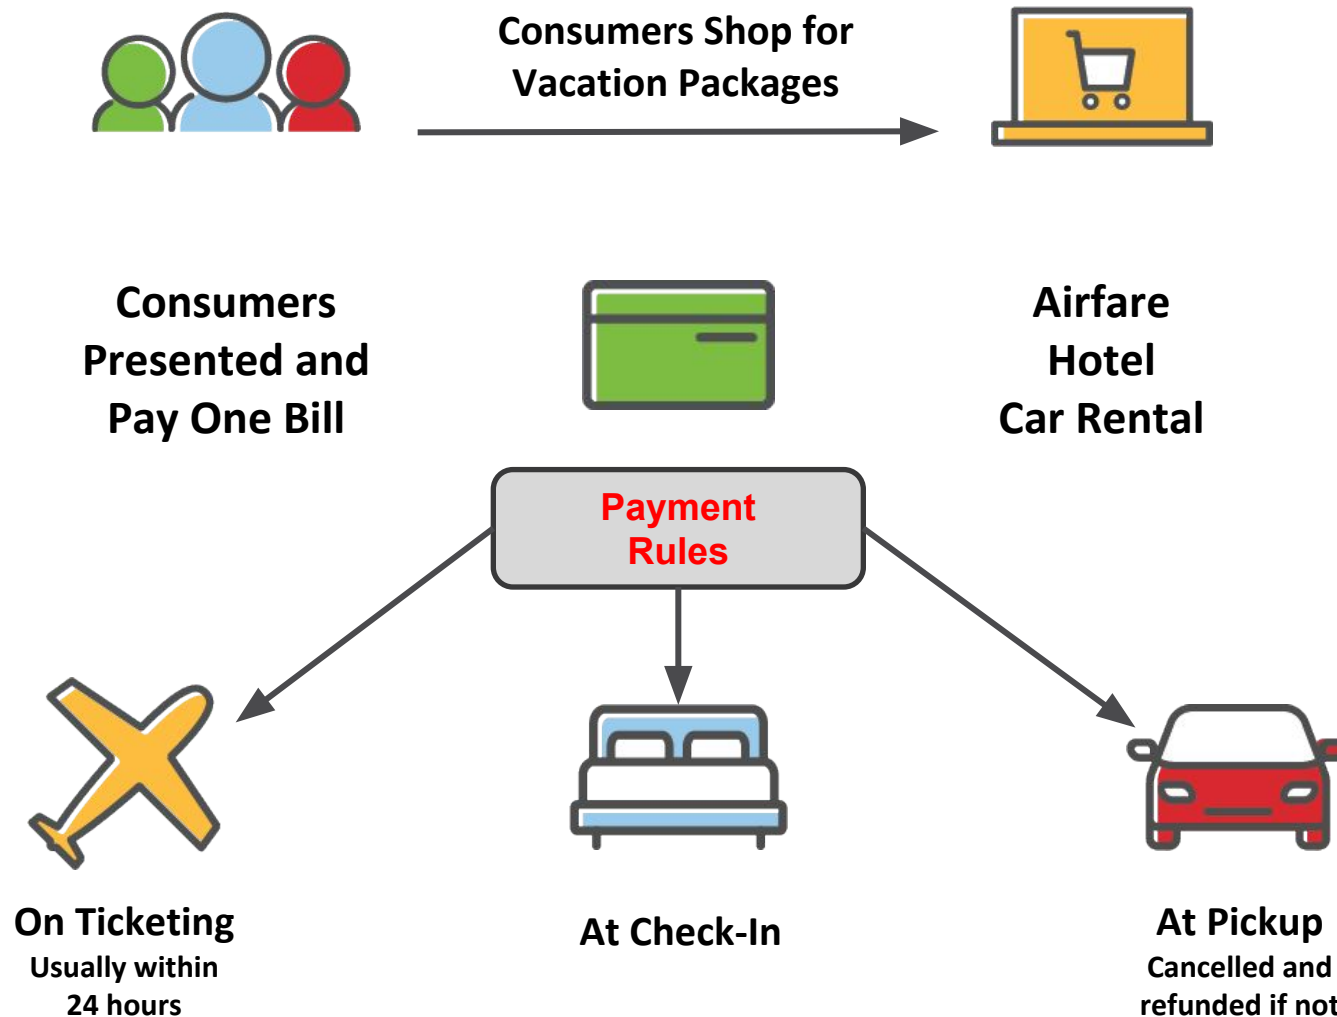

Public Sector

- Government Employer
- State-Based Marketplaces
- Medicaid
- Health and Human Services

Private Market Best Practice in Travel Industry

Billing, Payment Aggregation, Distribution of Funds

Public Sector SpeedLift Case Study

- State client quickly recognized need for economic relief among those receiving CHIP coverage which required monthly cost sharing.
- WEX has been doing Billing, Invoicing and Payment for the program.
- In March, the State asked WEX to quickly address the challenge by suppressing the invoices and remove the premium payment requirement during the period of COVID-19 and to do it before the next billing period.
- SpeedLift allowed WEX to nimbly respond to this State client challenge with a new solution within an existing product set and deploy in under 2 weeks.
- Additional Thoughts: Stacked Benefit Cards during Emergency Response
